-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2833

1. The amendment filed September 13, 2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the requirement that the claimed memory card is compatible with two different receptacles or formats.

Applicant is required to cancel the new matter in the reply to this Office Action.

2. Claims 5-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter, as indicated above, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention.

3. Claim 14 is objected to because it lacks antecedent basis for "the type." Appropriate correction is required.

4. Claims 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Contrary to claim 9, the memory card does not comprise means for contacting itself. The "means for contacting" is part of an electronic device, not the memory card to which the claim is drawn. Claims 9 and 10 appear to make reference to a number of different memory cards; if so, they should be clearly distinguished each time they are referenced.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 5-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Sasaoka, et al. This rectangular card comprises a cut off corner and seven electrical contacts I recesses, according to the MMC standard. It also comprises additional contacts providing compatibility with other standards. The existence of additional contacts does not reduce the compatibility with the MMC.

8. Claims 8, 9 and 10 as best understood, 11, 12 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Sharp, et al. This memory card comprises a contact structure 210, 212 compatible for use in a first electronic device (at 212) and in a second electronic device (at 210).

9. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sharp. Sharp suggests that various changes in the device may be made (column 6, lines 23-29) and that the purpose of the invention is to enable a card to be used on a plurality of devices. Therefore, it would have been obvious

Art Unit: 2833

to arrange the format to be compatible with any desired device, such as one with an MMC format.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cards of Dell, et al. are also compatible with multiple devices. Ito, et al. is an example of adding additional contacts in a second row. The devices of Eisele, et al. and Schuster, et al. allow use of a variety of cards.

11. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

12. It is suggested that responses to this final action be faxed to:

(703) 872-9306

Please refrain from sending a confirmation copy, as noted in 37 CFR 1.6(d) and 1.8(b).

Alternatively, responses may be mailed to:
